

# GRATITUDE...

Hi everyone,

My name is AKSHIT PARASHARI, 2022 passout from the Department of Electrical Engineering, KNIT Sultanpur.

I have been selected for Institute of Plasma Research (IPR), Gandhinagar through BARC-OCES'2022 and also I opted for M.Tech.(IEC) from IIT Delhi.

It is always said that the Institutions are not in itself great, greater are the faculty and support staff who nurture the students who join with so much faith and shape them as a better version of themselves.

I would like to extend my heartfelt gratitude to Hon'ble Director sir and all the respected faculty members for their consistent support and guidance throughout, which helped me to become academically competent as well as to cultivate moral values to shape my character. Being the class representative was also a great experience, as I got a chance to interact with faculty members and support staff more closely to learn from them as they have a lot to give us.

Altogether, the ambience and the environment, faculty support always motivated me to peak my career and to grow professionally as well as personally.

I wish all the very best to upcoming KNIT'ians. Enjoy your college life and keep working hard and achieve your aim. I Wish you all to come up with the flying colours.

Thank you.

AKSHIT PARASHARI
